

DEMOLITION PERMIT PROCEDURES

The following can take out Demolition Permits in Greensboro:

1. A State Licensed Building Contractor (Residential, Limited or Unlimited)
2. Demolition Contractor
3. The owner of the property.

The dollar (\$) amount for a permit for complete demolition of a structure will always be \$75. The dollar amount for interior demolition will be based on the dollar value of the job.

Total demolition of a commercial building requires a **NESHAP** number from the State. The contractor must have the completed form before permit issuance.

No State information is required for an interior demolition permit on commercial work.

Residential Demolition permits do not require any permits from the state. The contractor/owner shall provide the City with an asbestos report from a state accredited asbestos inspector and is responsible for any asbestos removal and disposal.
