Need flood zone information?

The City's Water Resources Department provides free flood zone determinations on request.

If you have been told that any part of your property is in a flood zone, this service will confirm if the property is within City limits and if it's in or out of the Special Flood Hazard Area shown on the current Flood Insurance Rate Map (FIRM), and it will give you additional flood insurance information such as the FIRM zone the property is in and its base flood elevation or depth.

To request a determination, call Water Resources at 373-2055 or go online at greensboro-nc.gov/departments/Water/stormwater/flood/flood-zonedetermination.htm to fill out a service request form.
