

City of Greensboro
Peak Hour Traffic Disruption Policy

In an effort to reduce traffic flow disruptions during peak travel times to Greensboro motorists, the City of Greensboro hereby adopts the “Peak Hour Traffic Disruption Policy” to be followed by all City Departments.

- Any work activity that requires a lane closure should not be performed during the hours of 7-9 AM & 4-6 PM Monday through Friday on public streets designated as Thoroughfares.
- Work activities that do not require a lane closure, but may impede the flow of traffic are discouraged and should be minimized during the hours of 7-9 AM & 4-6 PM Monday through Friday on public streets designated as Thoroughfares
- Any work activity that requires the closure of more than one travel lane in a particular direction is discouraged during the hours of 7 AM to 6 PM Monday through Friday and should not be performed without prior coordination with the GDOT Engineering Division.
- The GDOT Engineering Division should be notified of any work activity that will block a travel lane along a Thoroughfare for more than four (4) hours in duration. This information will be placed on the City’s “Real Time Traffic Information” web page. <http://www.ci.greensboro.nc.us/traffic/>
- Exceptions to this policy will be allowed during emergency situations or with prior approval from GDOT Engineering Division. A press release should be issued and appropriate Departments notified if a lane closure is allowed during the hours of 7-9 AM & 4-6 PM Monday through Friday.

This Policy effective June 3, 2002.
