NC EXISTING BUILDING CODE SECTION 410.7 & 806.2 – COMPLIANCE AND EXEMPTIONS WORKSHEET:

When alterations to an area of primary function or the route to it include Level 2 alterations as classified in Section 504 of the North NC Existing Building Code (NCEBC), sections 410.7 or 806.2 require the accessible route to the area of primary function to be accessible in accordance with the NC Building Code, including toilet facilities and drinking fountains. If your project includes Level 2 work, please provide the following information showing compliance with this requirement:

1. Enter the **total alteration cost (TAC)**, including all trades and all levels of alteration. (Include the cost of accessible features included in the alteration per NCEBC 410.6/806.1. Do *not* include costs to satisfy NCEBC 410.7/806.2. Enter those in the table below.) \$_____
2. Is the accessible route to the altered area of primary function already 100% compliant with the current accessibility code? Yes____; No____ (If yes, accessibility upgrades are not required.)
3. Are the alterations *solely* to windows, hardware, operating controls, electrical outlets and signs? Yes____; No____ (If yes, accessibility upgrades are not required.)
4. Are the alterations *solely* to mechanical, electrical or fire protection systems, or abatement of hazardous materials? Yes____; No____ (If yes, accessibility upgrades are not required.)
5. Are the alterations primarily for the purpose of increasing the accessibility of the facility? Yes____; No____ (If yes, further accessibility upgrades are not required.)
6. If answers to items 2 through 5 above are all "No", list work items that will be performed to improve accessibility along the route, indicate the code section satisfied, and state the cost as a percent of the **total alteration cost (TAC)** above. Provide all possible access without exceeding 20% of the total project cost. (If additional space needed, attach summary.)

WORK ITEMS PROPOSED	NCBC Section Reference	Cost (% of TAC)
TOTAL COST OF IMPROVEMENTS (% of TAC)		

7. Upon completion of these alterations, will the route to the altered primary function area be in full compliance with the NCBC? Yes____; No____. If no, list remaining unmet accessibility requirements below: (If additional space needed, attach summary.)

WORK ITEMS DEFERRED	NCBC Section Reference	Cost (% of TAC)
TOTAL COST OF DEFERRED IMPROVEMENTS (% of TAC)
