How to plan your trip

transportation services, you merely need to know: To successfully use GTA's extensive network of

- Where you are and where you are going.
- What time you need to be there.
- First, find the route that serves your present location and your destination.
- 2. Next, look for your destination on the schedule and read down the list of arrival times until you find your preferred time.
- Finally, trace the times backwards to your current location. This is the time you need to be at the bus stop to board your bus.
- 4. If your trip involves the use of more than one route, apply the same method starting with the ending bus route and work backwards.

are "timepoints" used to pace the bus progress along to estimate your departure and arrival times in between timepoints, averaging every other block. You may need Please note that the stops represented on the schedule the route. There are additional stops in between the
