Greensboro Parks and Recreation General COVID Procedures

The following is intended to provide participants, volunteer, parents, and staff with information related to guidelines, processes, and expectations that will be implemented by the Greensboro Parks and Recreation Department for programs, camps, activities, and events. The information included in this section is based on recent orders and guidance provided by the North Carolina Governor, various health organizations, as well as the City of Greensboro. The health and safety of all who are involved in our programs remains our highest priority. As much as possible, we will promote behaviors and implement processes that can help reduce spread of COVID-19. This will include, but not be limited to: implementing new standards related to facilities, education and training on cleaning and good hygiene practice, communicating new responsibilities and expectations for staff, participants, volunteers, and spectators, and establishing protocols for reporting cases. Below you will find a summary of actions we will take to ensure we are lowering COVID-19 risk as much as possible.

Overview

Do not come or bring the participant to the facility if they have and COVID symptoms: fever (100.4 or higher), cough, sore throat, difficulty breathing, or have been exposed to someone with COVID within the last 14 days. They should see a healthcare provider for testing and care. Staying home is essential to keep infections out of our programs, and prevent spread to others.

Monitor and Self-Report Symptoms

Participants are expected to monitor and self-report any COVID like symptoms to Parks and Recreation personnel. For youth, it is the responsibility of the parent/guardian to monitor and report COVID like symptoms to the Center Supervisor.

If the participant or someone in the immediate household test positive, or has been exposed to someone with COVID within the last 14 days, do not bring them to camp. Inform the Center Supervisor immediately. Anyone who has shown or is showing signs or symptoms of COVID will not be permitted to attend camp and will be asked to get tested.

- If positive for COVID, participant will not be allowed to attend for 5 days from the day tested. They can return on the 6th day.
- If the test is negative, they can return to camp once they feel better.

- If not tested, they will not be allowed to participate for 5 days from notification.
- Any sibling in the program must quarantine for the 5 days as well; they will not be allowed to attend camp during that time either (it is assumed they have been in close proximity to the infected person).

Assumption of Risk

While Parks and Recreation is committed to promoting behaviors and implementing processes that can help reduce the spread of COVID, the risk of contracting COVID, serious illness, injury, and possible death does exist. Participants, volunteers, and staff will all be expected to abide by the rules, policies, and guidelines as set by the City of Greensboro and the Parks and Recreation Department. All participants will be required to complete the City of Greensboro Liability Waiver prior to participation in any Parks and Recreation program.
