

The Greensboro MPO is developing a Comprehensive Safety Action Plan.

THE PLAN WILL:

Identify the who, the what, and the why behind major roadway crash trends.

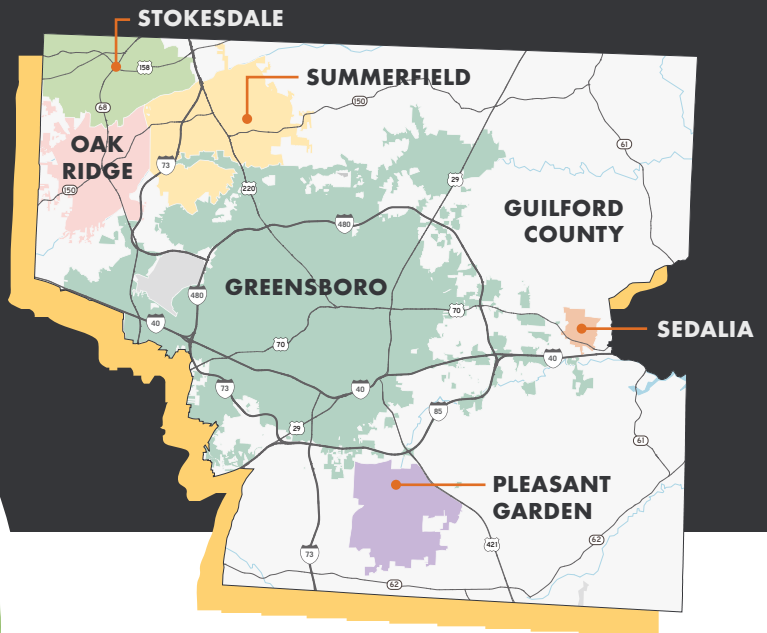

Reach out to the public to understand concerns.

Create solutions to make our roads safer for those who drive, walk, bike, or roll.

There have been **287** fatalities and **443** serious injury crashes in the Greensboro region between 2019 - 2023.

WHAT IS THE MPO?

The Greensboro Urban Area Metropolitan Planning Organization (MPO) manages the federally required transportation planning process for the area's highway, transit, bicycle, and pedestrian facilities. This area includes the **City of Greensboro**, the majority of unincorporated **Guilford County**, and the towns of **Oak Ridge**, **Pleasant Garden**, **Sedalia**, **Stokesdale**, and **Summerfield**.
