Contractors submitting proposals for the above named project are hereby notified that this Addendum shall be attached to and made a part of the Procurement Documents. The following items add to, modify, and clarify the Request for Qualifications and Procurement Documents and shall have full force and effect of the original Procurement Documents. Qualifications shall conform to those items and the changes, if any, of these items shall be included in the SOQ.

1. To date the following questions have been received:

- a. Question: Section 6.4 (Comparative Evaluation Criteria), states that "At least two (2) of these projects must have been a drinking water treatment plant". However, within Attachment C B.1, the same requirement for drinking water plants does not exist. This is a change from the previous RFP. Is it acceptable to use wastewater treatment facilities in lieu of the drinking water plants?

Answer: It is acceptable to use wastewater treatment facilities in lieu of drinking water plants, however the City prefers that the respondent shows at least two (2) drinking water plant projects.

Answer: The Org. Chart DOES count towards the page count, however, the Addenda acknowledgement form does NOT count towards the page count.
